

Career in medical science has always been a fascinating branch, which creates a sincere wish to join the course with lot many lofty ideas to serve the nation and to bring back home the reputation of being a medical practitioner. Thus it is a dream of every student to qualify in the entrance examination i.e. conducted at the national & state level with good rank. Most of the aspirants try vigorously and peruse their studies zealously. In the course of their preparation they face certain difficulties because they prepare both for national level entrance examination like AIPMT, AIIMS based on prescribed syllabus of CBSE along with state level entrance examination like OJEE (E&M) based on prescribed syllabus of CHSE. It is well known to all that ratio between demand and supply is wide enough in respect of medical seats available in our country, as a result students perusing their studies in this field face a break neck competition. Student of Orissa prepare mostly for Orissa JEE Medical with equal seriousness having been attached to AIPMT. It has been experienced that the student in general find it tough to record their desired performance. The comprehensive medical has been well designed for those students who are less strong in their preparation to their counter parts and accordingly target to OJEE medical on priority.

Padhee's Tutorial Pvt. Ltd. is the front-runner in devising, designing and introducing innovative programmes to help the maximum number of students for their record performance. Taking all aspects in to consideration Padhee's Tutorial Pvt. Ltd. has designed a special course under the able guidance of highly experienced teachers who have been in the trade for years. For Orissa JEE aspirants, the course has been experimented and has been acclaimed by students who sincerely peruse their studies to find a berth in the prestigious medical institution of the state.

The entire course is monitored through highly experienced faculty members, which comprises, Daily Test in each and every class. Weekly

Assessment Test and Monthly Assessment Test are conducted with strict adherence to the style and exact manner of the questions set for OJEE (E&M). Besides Practice Test Series a special test series is conducted to make the aspirants at home in his practice and preparation. At the fag end of the course VST is conducted to sharpen the memory of the aspirant and to instill confidence in him to get through the tests with expected rank. The course is more appraisals based and contains proper co-ordination to orient the aspirant in proper spirit and in a conducive atmosphere.

Padhee's Tutorial Pvt. Ltd. has the state of the art institution air-conditioned classrooms fitted with latest version of LCD projector, a well-stocked library and above all the best faculties to lead the students.

The whole programme is held under three cycles.

Cycle-1, gives emphasis for establishing a basic and conceptual base through concept classes and doubt removal sessions. **Cycle-2**, is meant for revision of the total course of the syllabus, advance learning and more practices, and due important is given to the requirement of OJEE (E&M). **Cycle-3**, is for more practice and more appraisal classes under the strict vigil of the highly experienced faculties.

This course aims at orienting the students to register spectacular performance in OJEE (Medical) . The students for this course get the similar opportunities that have been enumerated and spelt out in the above two courses. They are exclusively oriented and coached to explore their inner potentiality through various methods in different stages to farewell and enter into Medical College of Orissa. A student need to be serious in his studies and leave others to our faculties to take care of. The exception of this course is that it aims to make the students to qualify in Orissa JEE-Medical only.
