

# Padhee's Tutorial

## **About the course:**

Every child has an ambition in the form of a dream which he / she wants to pursue. When he / she comes out of school, he / she has a dream i.e., to move ahead in future. But unknowingly they waste the time, which they get between their Board examinations and the beginning of college. But those who utilize this period of time become very successful in life. This is so because they understand the value of time.

This course is specially designed for students who have appeared at their Xth class board exams. The entire summer vacation, which is often spent idly, can be utilized to learn the new learning mechanisms as per the requirement of JEE. This is an integrated course giving them a feeling well in advance about the requirements of their +2 Board examination along with the Entrance Examination of Engineering & Medical. The total course is conducted in Five Cycles:

**Cycle - I:** The cycle – I commence from April and continues till the end of December in every academic session. During this cycle emphasis is laid on detailed studies of the syllabus of class – XI of CBSE and +2 Science 1<sup>st</sup> year of CHSE course. Equal importance is also given to the application part of the course and coaching classes are arranged up to the standard of AIEEE & AIPMT. Coaching are available for subject like Physics, Chemistry, Mathematics, Biology, IT, Electronics and English. Study materials in the form of books are supplied to the students in each subject for practice and application. Besides Daily Test, Weekly Test is held at the end of every week as per the question pattern of CBSE, ICSE & CHSE. MAT is held at the end of every month in the pattern of different entrance examinations both for Engineering and Medical.

**Cycle-II:** This cycle is purely reversionary in nature. It is conducted during the month of January and February. Doubt clearing sessions, revision of courses are held in planned manner with usual tests in each subject. Series of Mock tests followed by analysis classes by proficient teachers are arranged and monitored with sincerity. Remedial coaching / Tutorial Classes are arranged for the students

found to be weak or considered slow learners. Students are provided with topic wise assignment for practice and revision without leaving any scope.

**Cycle-III:** The cycle – III starts with the 2<sup>nd</sup> year course (Class XII &+2 Sc. 2<sup>nd</sup> Year). The details studies of course curriculum commences from April and ends in November in every academic session. During this cycle the entire course of XII of CBSE /ICSE and +2 2<sup>nd</sup> Year Sc. are covered with clarity. As usual the weekly tests are held as per the pattern of CBSE and CHSE and MAT is held at the end of every month and the it is based on the style and pattern of different Entrance Examination of both Engineering and Medical.

**Cycle - IV:** This cycle starts from December and goes up to 30<sup>th</sup> Jan. as per the academic calendar wherein the course already taught are revised very systematically and in planned manner with usual tests. Series of Mock Tests are held which are followed by analysis classes by specialized teachers. Tutorial and remedial coaching classes are available to slow learners and weaker students. Topic wise Assignments are given to the students for practice and application.

**Cycle – V:** This cycle is said to be the last cycle of the course. It begins in the month of April and goes up to the end of May or OJEE (E &M) whichever is earlier. During this session special training is offered for different Entrance Examinations of Engineering and Medical. Very Similar Tests (VST) and Target Test Series together with analysis classes are held very punctually. During this period students are invited for personal interaction and counseling to boost their moral. Increased numbers of doubt clearing classes are held during this phase which is very crucial. The entire arrangements have been made keeping an eye on the requirement of the students for excellence in the Carrier and in Entrance Examination.

### **Course Highlights.**

- Removes the Examination Hall nervousness.
- Entrance Examination along with their school & college examinations.
- Utilizes the idle summer holidays for useful learning.

- Removes the examination fear through the different types of tests coming up with the course.
- Increases the awareness about different types of questions, generally when one encounters in the study books, assignments and test papers.
- Builds confidence to achieve the ultimate goal, i.e. Engineering & Medical Entrance Examination at the end of school or college exams.

### **Course planner ( Students Hand Book)**

#### **Cycle - I**

- Commences from April / May to Dec. (8 months)
- Detailed studies of course curriculum of Class – XI and +2 Sc. 1<sup>st</sup> Year
- Coaching classes for Engineering and Medical.
- Weekly Assessment Tests as per the style and pattern of CBSE/ICSE & CHSE Examination.
- Monthly Assessment Tests in exact style and pattern of Entrance Examination for Engineering and Medical.
- Comprehensive Study Books on basis of syllabus of the course.
- Doubt clearing sessions together with analysis classes by expert teachers.
- Basic assignments based on the course curriculum for practice at home.
- Last part of cycle is entirely devoted for holding reversionary classes of important topics.

#### **Cycle – II**

**This cycle covers the month of January and February.**

- Revision of entire syllabus as per the requirement of CBSE/ICSE/CHSE Examinations.

- Target Test Series in the exact pattern of CBSE/ICSE/CHSE Examinations.
- Module study book for CBSE/ICSE/CHSE. (2 books in each subject)
- Increased number of doubt clearing classes.
- Analysis classes after every test.
- Personal interactions.
- Individual counseling
- Tutorial classes for weaker and slow learners.
- Basic assignment for Engineering & Medical Entrance Examination.

### **Cycle – III**

**This cycle covers the month of April to November.**

- ◆ Detailed studies of course curriculum of class – XII and +2 Sc. 2<sup>nd</sup> Year of CBSE/ICSE/CHSE.
- ◆ Entrance Coaching for Engineering and Medical.
- ◆ Concept, Doubt clearing and advance classes by specialized teachers.
- ◆ Study materials based on the text books and basic study books.
- ◆ Advance study materials for entrance examination for both Engineering and Medical.
- ◆ Weekly Assessment Test in the exact pattern of CHSE / CBSE / ICSE.
- ◆ MAT in the exact pattern of different entrance examinations for both Engineering and Medical.
- ◆ Target test series based on examination pattern of Entrance Examinations.

### **Cycle – IV**

**This cycle covers the month of December and January.**

- ◆ Revision of the entire syllabus in a systematic and planned manner.
- ◆ Topic wise assignment of CHSE and CBSE syllabus.

- ◆ Series of Mock & VST for CHSE/CBSE examination.
- ◆ Test analysis classes after every test.
- ◆ Increased number of doubt clearing sessions.
- ◆ Interactive and counseling classes.

### **Cycle – V**

**This cycle covers the month of April & May.**

- Revision of entire syllabus of +2 Sc. 1<sup>st</sup> Year, 2<sup>nd</sup> Year, Class – XI & XII of CBSE/ICSE & CHSE Board as per the requirement and prescribed syllabus of Entrance Examinations.
- Increased number of doubt clearing sessions.
- Very Similar Test Series ( VST) on OJEE ( E &M), AIEEE, AIPMT & IIT-JEE.
- Evaluation & All Orissa ranking.
- Test Analysis classes after each and every test.
- Counseling and interactive sessions.
