

Padhee's Tutorial

ABOUT MCA-JEE

Young people cherish and soar with flight of imagination unfettered and unbridled. They always have a compulsive fascination for higher academic destination. The youths have dreams which has so often been materialized, being set in institution/organisation like Information Technology. Padhee's Tutorial occupies almost a legendary place for fulfillment of one's dreams. PTPL has an academic stand and settings coupled with other advantages is indispensable to young aspirants. PTPL has a predictable cost of academic Institution of a high order, and with faculties splendid, for all categories of MCA students.

Computers have become a part of our day to day life. Technology has been advancing at an incredible pace. There has been an enormous demand for skilled professionals both in and outside India. With increasing level of automation, recruiters today look for computer professionals and qualification in Computer Science as a minimum skill for any competitive environment. Now-a-days, the career of an individual stands on the sharp edge of competition. The career in IT has become the only choice left for students those who dream to earn a hefty salary. The professional qualification in IT from reputed and recognised institution gives better exposure along with the best pay& perk etc. in the industry with cent percent assurance for the job. We at Padhee's Tutorial provide such source of the career guidance to students to reach their desired destination.

In Orissa the introduction of IT has been a spectacular achievement with the operation of Mega success of companies like Microsoft, Satyam, Infosys, STP etc. The Govt. of Orissa also conducts a Joint Entrance Examination to enroll students in MCA course in different reputed institutes. The students of Orissa qualify from reputed organisations like JNU, PU, VJTI, REC, BHU, RIT, BIT etc. but the success rate does not touch the expected level.

MCA (Master of Computer Application) is a 3-year post graduate programme in Computer Application. Graduate in any discipline who studied mathematics / statistics as one of the major subjects in +2 or SSC level are eligible. Students in the final year graduation are also eligible to appear at the Entrance Test subject to submission of proof of their eligibility at the time of counselling for admission into MCA Course.

Orissa Government is conducting an Entrance Test to select students for MCA colleges of Orissa with multiple choice type of questions in Mathematics of +2 level and computer awareness. Generally the entrance examination falls in the months of May every year. Delhi university, VJJI Mumbai, Rooki university, REC Trichy, Bhu Varanasi, MNREC Allahabad, ICSE Indore, Jalgaon University, the TOP TEN MCA

Institutes in India also conduct entrance test separately on different syllabus and pattern during April to June every year.

As per the course structure it requires vigorous practice along with proper guidance from experienced & expert faculty. At Padhee's Tutorial, we provide such facilities like weekly & monthly test, test analysis class, study materials, special study material for computer fundamental and programming and above all the sincere support of its faculty.

PROGRAMME AT PTPL

The programme at PTPL and teaching methodology by highly experienced professionals and professors are targeted towards nourishing of the inner potential of the students. The course in PTPL is designed to make every one of them to work for themselves. The tests conducted Weekly, Monthly and at the end of the course along with its evaluation and analysis are designed to make them to introspect their own ability and to sharpen the process. It also ensures them to realise their own strengths and weakness and to harness their own creative energy. The study material & Assignment are structured to render step by step guidance towards higher level of mental exercise. The monthly performance report are despatched to parents for their information. The A/C library cum study room, well equipped classroom, neat & clean environment & above all Computer Lab. facility are the best features of PTPL.

AIM OF THE COURSE

The course "Comprehensive MCA" aims to train the students for MCA-JEE Orissa test and also some selective entrance test held in all India level. Regular coaching is provided for Mathematics (+2 level) and computer awareness along with reasoning coaching are also arranged. The course forms a strong foundation base in every student through concept classes by the experienced faculty. The faculties at PTPL are always available to clear the confusion and doubts through the 'Doubt clearing sessions'. Study material and assignments given creates a solid confidence in students pursuing their studies for entrance examination. When the tests taken on weekly/Monthly basis creates a foundation at the same time the Test Series at the ending stage of course completes the practice session. Very Similar Test Series gives a good ground for practice and asses the preparation already made. All these well prepared steps help the students to know their weakness and how to convert them to strength.

The entire course for MCA is taught in three phases and they are :

PHASE I

The duration of this cycle is of 8 months. This cycle includes a detailed study of concepts and basics. Doubt clearing classes and weekly and monthly test are held within this period as a regular curriculum. In a week regular classes are held for 4 days and 2 days are provided for practice and test of three hours duration. A complete set of study materials are given during the course. Separate classes for All India test and test series are also arranged during this period. Students are provided 15 Advanced assignment for All India level test. 5 Module test for all India level test. Classes are also held for verbal and non verbal reasoning.

PHASE II

This cycle is of 2-months duration which is purely revisionary in nature. The entire MCA-JEE syllabus is revised thoroughly. Weekly and Monthly tests are also conducted and more number of 'Doubt sessions' are arranged to clear the personal doubts and confusion of the students. Revisionary Assignment. Extra test series for computer awareness and reasoning are also arranged during this period.

PHASE III

This cycle is of 2 month duration and is meant for 'PRACTICE'. Very Similar Test series (15sets) are held which is followed by analysis by specialist teachers. The results of the tests published contain JEE ranking to create a competitive spirit among the students.
